

FEATURES AND BENEFITS

- Clear, crisp communication in demanding environments
- M-87 dynamic noise-canceling microphone (MIL-M-26542/ 2 USAF Specifications)
- Undercut, comfort-gel ear seals provide unsurpassed comfort and enhanced noise-attenuation
- Expanded, super-soft head pad for added comfort
- Hinged wire boom
- Single volume control
- 5-foot extended coil cord, with single plug (U-174/U)
- Passive noise attenuation rating of 24 dB
- One-Year Warranty - Backed by industry leading customer service
- NSN 5965-01-390-9240

H10-76

DESCRIPTION

David Clark Company is a trusted manufacturer of passive noise-attenuating and Electronic Noise-Cancelling air crew and ground crew headsets for the U.S. Armed Forces, NATO and most airborne command centers.

Headset Model Number H10-76 is designed to provide clear, reliable, mission-critical communications for both air crew and ground support personnel. The headset is built to withstand the rigors of the military aircraft cockpit and ground support operations, while providing maximum comfort and performance to ensure the safety of military personnel.

TECHNICAL DATA

Weight/Headset only	19oz/538g
Comm Cord	5-foot coil, with U-174/U
Certified NRR (3rd Party)	24 dB
Dome Type	Shallow, ABS
Earphone Type	Dynamic
Earphone Impedance	Low Impedance / 10 ohms. (19 ohms each, wired in parallel)
Earphone Sensitivity	90 dB SPL on flat plate coupler, re 1mW input @ 1KHz
Earphone Frequency	100 – 5,500Hz
Microphone	M-87/AIC
Mic Impedance	5 ohms +/- 20%
Mic Sensitivity	.05 - .11 mV at 1,000Hz with input of 103 dB SPL
Mic Frequency Response	300 – 3,000Hz
